**Local Manufacturer Assembles 120 Stuffed Animals for Local Children in Crises**

Washington, PA, December 12, 2018 - Washington Rotating Control Heads (Washington Rotating), a Washington County manufacturer of drilling equipment, just completed its third annual staff volunteer activity. The day before Thanksgiving, the Washington Rotating staff filled and sealed 120 stuffed animals for local children in crises.

“This is our second year in a row assembling stuffed animals for local organizations that work with children,” said Washington Rotating owner, Joyce Mayernik. “Our staff enjoyed the activity so much last year that we definitely wanted to try it again this year. We’ve received great feedback from the organizations we donate to and we hope that these animals bring lots of joy to the children in our community who receive them.”

The stuffed animals will be distributed between four local organizations, which include the Washington City Mission, Domestic Violence Services of Southwestern PA, the Washington Police Department, and the Washington Fire Department. These organizations will give the stuffed animals, which range from traditional teddy bears to unicorns, to the children they serve.

Kelly Simile, a staff member at Washington Rotating, explained, “Everyone had a great time working together and it was extra special because we were all doing something to help others.”
